

**Medigold Australian phytoactive tea tree honey 18+**

About 45 years ago research began into the healing mechanisms of honey, its antibiotic properties and its ability to inhibit the growth of micro-organisms

Got a tropical ulcer or a wound that just does not heal?

Medigold honey is the simplest, safest and most practical solution.

*When I applied the honey to a troublesome tropical ulcer, the wound pretty much totally healed in 36 hours. Or when I feel a bug coming on I put some honey on my tongue, and the bug never arrives!*

*I highly recommend this for everyone's medicine cabinet. Mark Visit [www.medicinalhoney.com.au](http://www.medicinalhoney.com.au) for more info and to buy.*

**Livos non-toxic face and body paints**

Healthy fun for children or adults, Livos non toxic face paints and finger paints are now available in Australia. Easy to apply and remove, the Vida natural make-up is safe to apply to face and body and holds up well to perspiration for many hours of creative dress up fun. The Salis finger paints are made from natural ingredients and can be used to decorate paper, wood, unglazed clay and fabric.

These can be purchased through Painted Earth; [www.house-paint.com.au](http://www.house-paint.com.au) or by phoning Deb on 02 6680 5729.
